

24th September 2014

Mark Heaney
London Borough of Bromley

Dear Mr. Heaney,

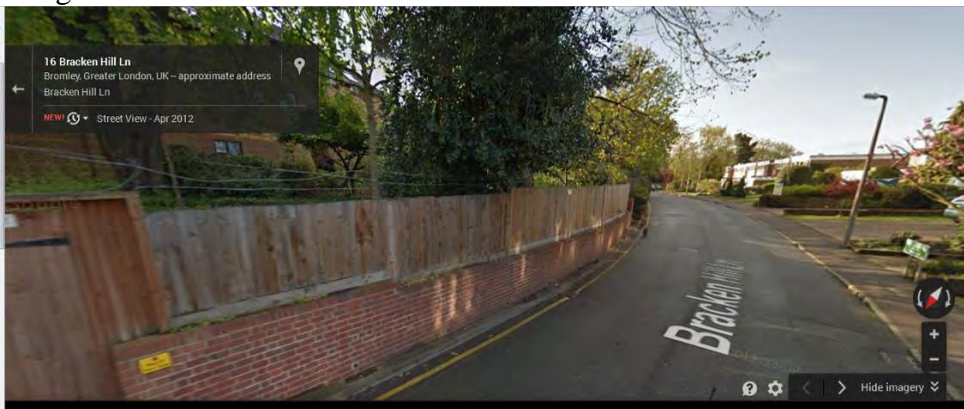

14/03278/FULL1 | Fence and gates fronting Bracken [sic] Hill Lane PART RETROSPECTIVE

Over-height boundary fence

The previously existing fence erected originally under 89/01148 and replaced under 98/01287 has been removed and replaced by one much higher without planning permission which this application now seeks to rectify.

We object to this application. In places the fence is now over 3m high, is much higher than the previously existing fence and is now excessively dominant in the street scene. Granting permission for this application would, we believe, set an unwelcome precedent.

Google Street View shows this:

Whereas the new fence looks like this (the yellow sign on the wall is a good indicator of the change): -

Another then and now comparison:

Note the corresponding positions of the shrubs on the wall

Yours sincerely
