

Dear Sir

**22/01439/FULL6 | Retention of single storey outbuilding at rear | 79 Coniston Road  
Bromley BR1 4JA**

We object to this application

The building by virtue of its elevated position and crude unfinished blockwork is an eyesore in the street scene.

Residents have reported, without supporting evidence, that people are already living in this building (and indeed this was the intent of an earlier planning application). In any event, there may be a possibility that this building may be used for residential purposes in the future. We are not clear whether this constitutes a strict planning issue at this point in time or whether this is a potential enforcement issue.

Your sincerely
